

Prof. Haruka Suzuki

Center for Low-Temperature Plasma Sciences,
Nagoya University, Japan

Dr. Suzuki has been an Associate Professor/Lecturer at the Graduate School of Engineering, Nagoya University, and at the Center for Low-Temperature Plasma Sciences, Nagoya University since 2022. She received her bachelor's degree from the Nagoya University School of Engineering in 2011, her master's degree in 2013, and her Ph.D. in 2016 from the Nagoya University Graduate School of Engineering.

Her current research interests include the development of novel plasma processes, plasma sources, and plasma diagnostics. Her expertise lies in electrical engineering and electronics, and she is involved in various plasma processes ranging from atmospheric pressure plasma to liquid plasma and vacuum process plasma.

Dr. Suzuki is a member of the Japan Society of Applied Physics, the Japan Society of Plasma Science and Nuclear Fusion Research, and the Institute of Electrical Engineers of Japan.
