

Dr. Matjaž Godec

Institute of Metals and Technology, Slovenia

Prof. Dr Matjaž Godec has been the director of the Institute of Metal and Technology (IMT), as well as group leader of the Department of Physics and Chemistry of Materials at the institute since 2011. He is the head of a six-year National Research Program P2-0132, "Physics and Chemistry of Metallic Materials", funded by the Slovenian Research Agency. From 2016-2019 he was the head of the ~10 M€ budget European project MARTINA, funded by Structural Funds. He is currently leading three national and international projects, each spanning three years. Additionally, he is in charge of the Slovenian segment of the European Horizon 2020 InShaPe project. He is also the First Assistant Chief Editor of the journal Materials Science and Technology. His expertise lies in the additive manufacturing of metallic materials and he is involved in surface engineering of such materials. He is the author of 153 original scientific papers, 230 conference contributions, 9 invited lectures, 2 keynote lectures, 1 chapter in a monography, 286 industrial reports and expertise and has supervised 4 doctoral theses and co-supervised 3. He has 1836 citations, and his h-index is 22.
