

Prof. Masaharu Shiratani

Director of Center of Plasma Nanointerface Engineering (CPNE),
Director of Quantum and Photonics Technology Research Center
(Q-Photon Center),

Department of Electronics,
Graduate School of Information Science and Engineering,
Kyushu University, Japan

Education

Doctor of Engineering in Electrical Engineering, Kyushu University, 1990.

Research Activities

Research interests include plasma technologies for semiconductors, carbon and nitrogen recycling, plasma agriculture and social implementation of quantum computing. H-index (Google Scholar) is 48. He received 28 awards including “Plasma Materials Science Hall of Fame Prize (2023)”
